DIFFUTHERM

GENERAL DECLARATION

EU Deforestation Regulation (EUDR)

Regulation (EU) 2023/1115 on deforestation-free products

Diffutherm B.V., manufacturer of industrial coatings and chemical-technical products and part of the Würth Group, supports the objective of the EUDR to minimise the European Union's contribution to global deforestation and forest degradation. This general declaration answers the EUDR enquiries we receive from our customers.

Our assessment

Together with our suppliers, we have assessed our raw materials and packaging materials against the relevant commodities (cattle, cocoa, coffee, oil palm, rubber, soya and wood) and the relevant products listed in Annex I of the Regulation. Our suppliers have confirmed their position to us in signed written declarations.

Declaration

On this basis, and to the best of our knowledge, Diffutherm B.V. declares that:

- we do not use any raw materials or packaging materials that fail to comply with the requirements of the EUDR;
- where purchased materials are relevant products under Annex I (for example wood- or paper-based packaging), our suppliers have confirmed that these meet the EUDR requirements by the applicable date of application;
- according to our assessment, the products we supply are not themselves relevant products within the meaning of Annex I. No due diligence statement (DDS) is therefore required for our products, and no DDS reference numbers apply to them.

Monitoring and validity

The EUDR applies from 30 December 2026 (30 June 2027 for micro and small operators). Products added to Annex I by Delegated Regulation (EU) 2026/2102 become subject to the Regulation from 30 December 2027. We monitor changes in legislation and scope together with our suppliers and will update this declaration where necessary.

This declaration is general in nature, applies to all products supplied by Diffutherm B.V. and remains valid until it is replaced by a newer version. For questions, please contact our Customer Service at csc@diffutherm.nl.
